MISSOULA--

Dr. Gary Gustafson, research associate for the Department of Agricultural Chemistry, Washington State University, Pullman, will give a public seminar entitled "An Analysis of Accumulations of UDP-Glucose Pyrophosphorylase During Differentiation of the Cellular Slime Mold" at 2 p.m. Monday, Aug. 5, in room 411 of the Health Sciences Building at the University of Montana.

Gustafson will discuss how the levels of specific sugars change during the reproductive process of the cellular slime mold. In addition, he will discuss the regulation of protein synthesis in the slime mold.
